CUSTOMER: _____

NAME: _____

1 BLOCK = _____ FEET

DATE: _____

1. Determine scale in Number of Feet per Block, for example 1 foot per block or 2 feet per block, depending on your shop size. The grid shown above is 50 x 70 blocks.
2. Draw walls of building. Include all items that may obstruct ducting: walls, pipes, other equipment.
3. Draw all equipment requiring exhausting. Make sure to show location of the exhaust ducts on the equipment.
4. Draw preferred location of dust collector.
5. Exact measurements can be written.
